To All My Families:

It is with a heavy heart that I must announce my departure from The Pediatric Center. I will be leaving at the end of the year to return to New Mexico, where I will be able to focus on providing care to an underserved population of young patients. While I look forward to the opportunity ahead, I will miss you all. It has been an honor to care for so many great families while at The Pediatric Center.

Following an exhaustive search, I am happy to say that we have found an excellent doctor to take my place at The Pediatric Center. Dr. Aneel Gursahaney is an enthusiastic bright pediatrician with exceptional training and experience. He is a graduate of Northwestern University Medical School and completed his pediatric residency at the University of Minnesota. For the past 7 years, Dr. Gursahaney has practiced general pediatrics at the Park Nicollet Brookdale Clinic in Minneapolis, MN.

Dr. Gursahaney feels extremely fortunate to have the privilege of practicing pediatric medicine. He values the relationships that he develops with families, and focuses on thoughtful, evidence-based care. In his current position, Dr. Gursahaney has served as the lead clinician. He has a special interest in promoting healthy and active lifestyles.

Dr. Gursahaney, his wife and two young children are looking forward to their move to the Boulder area. They are ready to join the "Boulder lifestyle" and to take advantage of our multitude of outdoor activities.

Dr. Gursahaney will join The Pediatric Center in May, 2017. I encourage you to continue your children's care with him. Until he arrives in May, the other providers at The Pediatric Center will be available to you. Drs. Pamela Rubner and Naomi Feiman will cover my usual days in the office. They are both warm and experienced pediatricians. Additionally, all the other wonderful pediatricians at The Pediatric Center are, as always, happy to work with you.

Again, thank you for all the great memories and the trust that you have placed in me over the last few years. I wish you all the best in the future.

Sincerely,

Nancy Kelley, MD
